

ACCELERATE SOLIDWORKS DESIGN AND MANUFACTURING WORKFLOWS, WHERE AND WHEN YOU NEED IT

Experience better and faster results across all your SOLIDWORKS projects, with PREVAILPRO Mobile Workstations from PNY. PREVAILPRO enables you to optimize your workflow using NVIDIA Quadro Pascal™ GPU acceleration throughout SOLIDWORKS, providing smoother, more realistic performance in every design mode, rendering physically accurate materials, while enabling immersive, collaborative VR design reviews.

ISV certified for SOLIDWORKS, PREVAILPRO mobile workstations deliver a fluid and interactive design experience across all viewing modes, letting you more efficiently experiment with and evaluate design alternatives, leading to shorter product development cycles and better product offerings.

SUPERIOR REALTIME PHOTOREALISTIC RENDERING

PREVAILPRO mobile workstations powering SOLIDWORKS and SOLIDWORKS VISUALIZE Professional allow you to interactively visualize design changes across your workflow with the confidence that you are seeing lifelike, photorealistic virtual products on ultra high resolution 4K displays. Accurately seeing products in photorealistic quality as early in the development pipeline as possible is critical to your success.

POWERED BY NVIDIA QUADRO PROFESSIONAL GPUs

NVIDIA Quadro P4000 or P3000 GPU, an Intel Core i7 7700 HQ processor, up to 32GB of DRAM, a total of 2.5 TB mass storage, along with a comprehensive array of USB, Ethernet, WiFi, Bluetooth, audio, and media reader ports, provide everything required to fully realize your potential with SOLIDWORKS—all in an ultra thin and light mobile workstation.

EXTREME PERFORMANCE

NVIDIA Pascal architecture delivers better visualization and compute performance than the previous generation of Quadro products.

FASTER DATA

Quadro Pascal supports GDDR5, the latest high performance graphics memory technology that provides significantly more memory bandwidth than previous generation technology.

ADVANCED GPU FEATURES

VR specific features (P4000) significantly improve VR performance, enabling the most detailed life-like VR experience possible. Enhanced workload balancing improves graphics and compute interoperability.

EXPAND YOUR VISUAL WORKSPACE

Expand your visual workspace with up to 3 external 4K UHD displays (3840 x 2160 at 60Hz) with HDR color support that lets you view your creations in stunningly life like and vivid detail.

THIN & LIGHT DESIGN

Carry your mobile workstation with ease, the ultra-low profile design is only 0.73" thick (18mm) and only weighs 4.8 lbs (2.2kg).

SEVENTH GENERATION INTEL i7 PROCESSOR

The Intel® Core™ i7 7700 HQ runs multiple CPU-intensive applications simultaneously while delivering the performance and interactivity you require.
