

Gaming Solutions

PNY offers an extensive selection of products suited for all levels of PC and console gamers...from the casual gamer needing a simple upgrade or storage solution to the advanced gamer desiring all the dynamic visual effects of the latest DirectX® 10 games.

XLR8™ ...the next generation of high-end gaming performance from PNY.

XLR8™ products are designed for gamers who demand more from their gaming experience.

XLR8 products are all made from premium quality components and are put through the highest level of testing standards to ensure reliability and stability, including NVIDIA's SLI™-Ready standard.

Get the most out of your PC. Achieve ultra-realistic gaming experiences and unparalleled image quality with the XLR8 Memory, Graphics Cards and Motherboard lineup from PNY.

XLR8™ Memory

XLR8™ Memory offers you high performance memory modules at low latencies with uniquely designed heat sinks that will deliver blazing fast speeds and reliability backed by a lifetime warranty.

XLR8™ Graphics Cards

XLR8™ Graphics Cards offer the latest spec NVIDIA SLI™-Ready GPUs with full DirectX® 10 support, HDCP capability and Overclocked options for hardcore gamers to push faster frame rates.

XLR8™ Chilled Graphics Cards

XLR8™ Chilled Edition Graphics Cards are the fastest Overclocked production graphics cards available! These out-of-the-box ready Overclocked GeForce® Ultra graphics cards are actively-chilled through thermal electric cooling and are available in single card, SLI™ and 3-way SLI™ configurations with no additional components or assembly required.

XLR8™ Motherboards

XLR8™ Motherboards provide the best platform for gaming and high-performance computing enthusiasts with full-bandwidth 3-Way SLI™ support and best-in-class support for Overclocking with an abundant, fully-tweaked feature set.

XLR8™ Flash products are designed for gamers who demand only the highest-performing, best-looking hardware available in the industry today, and want more from their PC or Console gaming experience.

XLR8™ Flash Memory Cards

Designed especially for hard core gamers and enthusiasts, PNY's XLR8™ Flash Memory enables you to save games, images, music and videos faster. These cards are compatible with the latest gaming consoles and other SD compatible devices, such as digital cameras, MP3's, PDA's, and smart phones.

XLR8™ USB 2.0 Flash Drives

XLR8™ USB drives perform at up to 200X* (30MB/sec.) sustained read, and 133X* (20MB/Sec.) sustained write speeds letting you store games, updates and game saves faster. XLR8 drives also make a great solution to share and transport photos, documents, music and more, and the cool new design prevents lost caps.
