# Mobility Solutions

Whether it's for work or play, cell phone memory, USB drives, or laptop upgrades, PNY has solutions to fit your mobile lifestyle.

## MicroSD/SDHC™\*\* Cards

Micro SD/SDHC cards let you get the most out of your cell phone, PDA, or SmartPhone to download and play music, games, video, and more. Business users will be able to store more e-mail, documents, and presentations for easy access when away from the office.

## 4-in-1 Mobile Media Kit

PNY's 4-in-1 Mobile Media Kit combines a MicroSD™ card, with 3 included adapters that convert your card to a full-size SD, MiniSD™, or even a USB drive, offering much more versatility than competing products. You can use a single memory card with your cell phone, digital camera, computer, or other SD or USB drive compatible devices.

## USB Flash Drives

PNY's USB drives include options to store and transport up to 32GB\* of your most important digital documents, images, and music. If security is paramount, our IronKey USB drive protects your data at rest and on the go with always-on government-level encryption. With different styles, features, and capacities, PNY has a USB drive to fit your lifestyle.

## External Dockable Graphics

The PNY External Dockable Graphics is the perfect complement and add-on to the laptop user who wants the graphics capabilities of a desktop but the ease and mobility of a laptop. This piece sits on your home or office desk and simply plugs into the Express-Card slot on your laptop, instantly providing increased graphics capability through dual or quad\*\*\*monitors. With 6 USB ports you have the flexibility to connect a keyboard, mouse, hard drive, flash drive, photo printer, or any USB peripheral. This simple plug-n-play device is a must-have for gamers, business professionals, or any PC user who wants desktop graphics in a laptop environment.

- \* Please note: For Flash Media Devices, 1 megabyte = 1 million bytes; 1 gigabyte = 1 billion bytes. Actual usable capacity may vary. Some of the listed capacity is used for formatting and other functions, and thus is not available for data storage.
- \*\* Please verify that your device supports SDHC. SDHC cards are not compatible with standard SD host devices and card readers, and will only work on SDHC host devices. Check with your device manufacturer to see if the device supports SDHC.
- \*\*\* Quadro version required
