

PNY

THE PERFECT UPGRADE
FOR SOLIDWORKS® 2011
NVIDIA® QUADRO®

UPGRADE THE QUALITY OF YOUR DESIGN EXPERIENCE WITH SOLIDWORKS 2011 AND NVIDIA® QUADRO® BY PNY PROFESSIONAL GRAPHICS SOLUTIONS

The latest Fermi-based NVIDIA® Quadro® by PNY professional graphics solutions allow engineers and designers to take full advantage of SolidWorks® 2011 and interact with complex 3D CAD models in real time.

With Quadro, your models are shown on screen as intended without simplifying geometries or lowering rendering quality. Zoom, rotate and manipulate large datasets in real time with ease - without compromising image details or your standards.

The latest Quadro professional graphics solutions support and enhance SolidWorks RealView in ways other cards can't. With RealView, your 3D models come to life and interact with their environments. And with NVIDIA Quadro under the hood they will do it in real time.

The V-Rex from Travertson, Inc. is a perfect example of what the combination of SolidWorks and NVIDIA Quadro can deliver to leading designers and engineers. Image courtesy of Travertson Motorcycles.

Which SolidWorks 2011 Certified NVIDIA Quadro by PNY graphics board is right for you?

Model Number	PNY Part Numbers	CUDA Cores	Video Memory	Max. Power	Max. # of Displays	DP	DVI	VGA
Quadro 2000 New	VCQ2000-PB	192	1 GB	62W	2	●	●	●
Quadro 4000 New	VCQ4000-PB	256	2GB	142W	2	●	●	●
Quadro 5000 New	VCQ5000-PB	352	2.5GB	152W	2	●	●	●
Quadro 6000 New	VCQ6000-PB	448	6GB	204W	2	●	●	●

*DP = DisplayPort

All NVIDIA Quadro by PNY professional graphics solutions ship standard with accessories, cables and brackets, come with a 3 year warranty and toll-free tech support.
